

Home Organization Client Questionnaire

This survey is intended to get to know my customers better before I begin with home organization work (please don't use dark pen that might bleed through) Thank you in advance for taking time to fill this out!

1. What are YOUR goals for this project? How many hours do you anticipate this project taking? (I will share my thoughts too)

2. What type of storage containers do you prefer? (clear bins, neutral bins/baskets; colored bins/baskets; fabric bins; baskets; or does it vary by room? (please specify)

3. Are you willing to be ACTIVE in the declutter process *before* we begin organizing? This is often the most important step and is a difficult and emotional process. This is the step we would most need your assistance with! After the decluttering, do you or your partner prefer/require high involvement or minimal involvement in decision-making?

What is/are your home "style" preference(s)? i.e. Minimalistic, Neat & Tidy, Easy Accessibility, Modernized, Farmhouse or "I don't care as long as my space is tidy and items are easily accessible?"
